

PSD SENSOR DISPENSE

For Touchless Water Cooler Operation

TOUCHLESS-DISPENSE

Sensor activated design allows simple touchfree dispensing of hot and cold water.

PLUG-AND-PLAY INSTALLATION

Includes factory wiring harness for a simple installation. Requires a hole be drilled in the lid for the wiring to pass through. Easy, professional retrofit in minutes.

SAFETY FEATURES

Hot water select features a safety delay to eliminate false dispenses.

SLEEK DESIGN

Engineered to blend in seamlessly with Pure Water Technology coolers.

TECHNOLOGY ADVANCEMENTS

Advanced sensor technology ensures water only dispenses when YOU want it to.

COMPATABILITY

Available for model PWT 3i and **will not void any pre-existing warranties.**
